

- Unit 1 – Patterns and Functions
 - Week 1 – Pre-Algebra Review
 - Week 2 – What is a Function?
 - Week 3 – Graphing Equations
 - Week 4 – Can I change?
- Unit 2 – Linear Equations
 - Week 5 – Slope
 - Week 6 – Linear Functions and their Inverses
 - Week 7 – Translating Graphs
- Unit 3 – Modeling Linear Data
 - Week 8 – Data to Functions
 - Week 9 – Understanding Functions
 - Week 10 – Cause and Effect
- Unit 4 – Statistics
 - Week 11 – Representing Data
 - Week 12 – Outliers and Frequency
 - Week 13 – Reporting Quantities
- Unit 5 – Linear Equations and Inequalities
 - Week 14 – Literal Equations
 - Week 15 – Inequalities
- Unit 6 – Systems of Equations
 - Week 16 – Systems of Equations
 - Week 17 – Elimination
- Unit 7 – Sequences and Functions
 - Week 18 – Understanding Interest
 - Week 19 – Sequences
- Unit 8 – Exponential Functions
 - Week 20 – Introduction to Exponential Functions
 - Week 21 – Radical Functions
 - Week 22 – Modeling Exponential Functions
- Unit 9 – Linear and Exponential Models
 - Week 23 – Linear and Exponential Functions
 - Week 24 – Combining Linear and Exponential Functions
- Unit 10 – Understand Quadratic Functions
 - Week 25 – Quadratics as Functions
 - Week 26 – Graphing Quadratics

- Week 27 – Introduction to Factoring
- Unit 11 – Operations on Polynomials
 - Week 28 – Polynomial Operations
 - Week 29 – Closure
- Unit 12 – Solve Quadratic Functions
 - Week 30 – Factoring
 - Week 31 – Completing the Square Lesson Plan
 - Week 32 – Systems and Quadratic Formula Lesson Plans
